90451-3XA0D 90450-3XA0D Automobile Gas Spring Replacement for Auto Spare Parts

Our Product Introduction

For more products please visit us on automobile-sparepart.com

Basic Information

- Place of Origin: CHINA
- Brand Name: NABO
- Certification: TS16949
- Model Number: 90451-3XA0D 90450-3XA0D
- Packaging Details: poly bag or air bubble bag, any boxes with customers' label, Corrugated box , Standard tray
- Delivery Time: 3-35 days
- Payment Terms: D/P, L/C, T/T

Product Specification

- Name: Automobile Spare Parts
- Type: Automobile Gas Spring
- Warranty: 12 Months
- Country Of Origin: China
- Size: Standard

Product Description

Product Description:

The Automobile Gas Spring is an exclusive element that is carefully crafted to cater to the needs of the automotive industry. This particular component has been designed to offer precise control and support, along with lift assistance, to various parts of a vehicle. With its specialized design, it operates optimally to meet the unique requirements of automotive applications.

Features:

Support and Lift Assistance

Our Gas Spring is specially designed to provide reliable support and lift assistance for various automotive applications. From hoods to tailgates, it can hold open heavy components to make accessing the vehicle's storage areas safer and easier. The controlled force of the gas spring ensures a smooth and effortless lifting and holding experience of objects in the desired position.

Adjustable Force and Stroke

Our Gas Spring's adjustable force and stroke options offer flexibility and functionality to meet specific automotive requirements. By tweaking the gas pressure or volume within the cylinder, the force exerted can be customized to the weight and movement characteristics of the component, ensuring precise support and lift assistance tailored to each application.

Damping and Motion Control

Our Gas Spring dampens and controls motion effectively, mitigating the impact forces, noise, and vibrations in various automotive applications. It absorbs and dissipates energy generated by moving parts, ensuring smooth and controlled movement. This feature is particularly important in vehicle suspension systems, enhancing ride comfort and stability.

Safety and Reliability

Our Gas Spring is engineered with safety features in mind. It includes built-in valves that regulate the extension and retraction speed to prevent uncontrolled or sudden movements. This ensures safe and controlled operation, minimizing the risk of accidents or injuries.

Durability and Longevity

Our Gas Spring is constructed with high-quality materials, such as robust steel or stainless steel components, ensuring durability and long-lasting performance. It is designed to withstand the harshness of the automotive environment, including exposure to vibrations, temperature variations, and moisture, without compromising its functionality.

Easy Installation

Our Gas Spring is designed for hassle-free installation in automotive applications. It is engineered to fit specific mounting points and interfaces, ensuring straightforward and easy assembly or replacement. This saves time and effort during installation and replacement.

Technical Parameters:

Country of Origin	China
Name	Automobile Spare Parts
Type	Automobile Gas Spring
Warranty	12 Months
Size	Standard

Applications:

Enhance Your Ride with Our Top-Quality Automobile Gas Spring

If you're looking to improve the performance and comfort of your vehicle, we have just the solution for you. Upgrade your automobile with our premium Gas Spring and enjoy reliable support, lift assistance, and motion control, which will bring convenience, safety, and enhanced functionality to your driving experience.

Our Gas Spring is specifically designed for use in automotive applications, ensuring its exceptional quality and unparalleled performance. You can depend on it to deliver consistent and controlled force, which will contribute to a smooth and comfortable ride.

Trust in the durability and longevity of our Gas Spring to provide lasting results. You'll enjoy improved handling and stability, reduced vibrations and noise, and greater comfort—all while ensuring your safety on the road.

FAQ:

1. Who are we?

We are based in Guangzhou, China, start from 2018, we are specializing in all kinds of spare parts for Japanese cars and Korean cars, for example, engine parts, suspension parts, electric parts, steering parts, transmission parts, body parts. . .

2. How can we guarantee quality?

Always a pre-production sample before mass production;

Always final inspection before shipment.

3. Why should you buy from us from other suppliers?

We have experience in spare parts for more than 10+years
