

57724-2S000 Auto Parts Steering System Tie Rod End For Hyundai ix35

Our Product Introduction

For more products please visit us on automobile-sparepart.com

Basic Information

- Place of Origin: CHINA
- Brand Name: NABO
- Certification: TS16949
- Model Number: 57724-2S000
- Minimum Order Quantity: 100 SETS
- Price: \$2.57~3.57
- Packaging Details: poly bag or air bubble bag, any boxes with customers' label, Corrugated box, Standard tray
- Delivery Time: 3~ 45 days
- Payment Terms: D/P, L/C, T/T
- Supply Ability: 50000 pcs per month

Product Specification

- Packing: Poly Bag With Carton, After Pallet
- Product Name: Tie Rod End
- Quality: 100% Tested
- Warranty: 12 Months
- Weight: 0.5kg
- Car Make: For Hyundai Kia

Product Description

Product Description:

A vehicle's steering system relies on several components working together to provide smooth and precise steering movements. One of the most crucial components is the tie rod end, which is connected to the outer ends of the tie rod. The function of the tie rod end is to link the steering linkage with the steering knuckle or spindle. This connection plays a critical role in maintaining steering control and stability. Without the tie rod end, the steering system would lack stability and could cause the vehicle to veer off course. Overall, the tie rod end is essential for any vehicle's steering system, and it must be in good condition to ensure smooth and precise steering movements, providing a safer driving experience.

Features:

Our tie rod end boasts superior construction. We use high-quality materials like forged or cast steel to ensure that it can withstand the demands of daily driving. This construction helps our tie rod end resist wear, impact, and corrosion, ensuring that it will last for a long time. Precise steering control is essential when driving a vehicle. The tie rod end connects the steering linkage to the steering knuckle, making the driver's input translate smoothly into precise steering movements. With an accurate design and a tight ball joint or bushing mechanism, our tie rod end provides optimal steering control and responsiveness. The tie rod end is available in either a ball joint or bushing design, depending on the vehicle's specifications. Ball joint tie rod ends offer articulation and rotational movement, while bushing-style tie rod ends offer flexibility and vibration dampening. Easy installation is a significant factor when purchasing a tie rod end. Our tie rod end is designed for hassle-free installation and comes with all the necessary hardware and instructions. This means it is convenient for both professional mechanics and DIY enthusiasts.

Technical Parameters:

Product Name:	Tie Rod End
Car Make:	For Hyundai Kia
Quality:	100% Tested
Warranty:	12 Months
Packing:	Poly Bag With Carton, After Pallet
Weight:	0.5kg

This product is also known as Tie Rod Linkage Ends, Tie Rods Steering Ends, or Steering Component Connectors.

FAQ:

1. Who are we?

We are based in Guangzhou, China, start from 2018, we are specilizing in all kinds of spare parts for Japanese cars and Korean cars, for example, engine parts, suspension parts,electric parts, steering parts,transmission parts, body parts. . .

2. How can we guarantee quality?

Always a pre-production sample before mass production;
Always final inspection before shipment.

3. Why should you buy from us from other suppliers?

We have experience in spare parts for more than 10+years
